4 GENERAL

- 4.1 ASI keeps this Controlled List of MSC Certification Scheme Documents on the ASI file server in an MSC subdirectory. The list identifies all current MSC documents governing standards, certification processes, interpretation, advisories, and guidance, as issued by the MSC. File copies of all current MSC certification scheme document are also kept on the ASI file server in the MSC subdirectory.
- 4.2 The Controlled List of MSC Certification Scheme Documents is considered a controlled document. ASI updates the list when notified by the MSC of any change to scheme-related documents. ASI distributes new or revised MSC scheme documents to CBs following the *Work Instruction-MS List-Server*.
- 4.3 File copies of MSC scheme documents are considered external documents by ASI and therefore are not subject to ASI Document Control Procedures. Copies of MSC scheme documents that are maintained on the ASI file server are considered uncontrolled documents. Copies of MSC scheme documents distributed by ASI to CBs are also considered uncontrolled documents.
- 4.4 CBs are provided a copy of the Controlled List and copies of current MSC scheme documents at the time of application to ASI for accreditation, or upon request to ASI (info@accreditation-services.com). The current list is shown in Table 1.
