Date:	23 February 2009
Report drafted by:	Hubert de Bonafos
Contact email:	h.bonafos@accreditation-services.com
Approval body	ASI Accreditation Committee
Deadline for approval	
Document Title:	Request for termination of accreditation for VIBO FM/COC and COC
ASI reference code:	ASI-REP-124-VIBO-2009-Mexico

RECOMMENDATION:

ASI-Accreditation Services International GmbH recommends the termination of accreditation for “Fundación Vida para el Bosque A.C.” (VIBO).

SUMMARY

“Fundación Vida para el Bosque A.C.” (VIBO) has not provided ASI with any documented evidence to demonstrate that the issues raised in ASI suspension report dated 01 July 2008 (ASI-REP-121-VIBO-2008-Mexico) have been addressed.

ASI suspension report indicate the following:

If VIBO has not demonstrated compliance with all corrective action requests within 6 months from the date of the suspension decision, VIBO accreditation will be terminated.

Together, the major nonconformities outlined in ASI suspension report indicate a clear breakdown in the implementation of VIBO accredited procedures and are creating a severe risk to the credibility of the FSC in Mexico.

ASI cannot guarantee the competence of VIBO as an accredited conformity assessment body for the FSC program and recommends the termination of VIBO’s accreditation.
